CUMIN PRICES DROP ON INCREASED ARRIVALS

Cumin Jeera prices dropped due to increased arrivals to the markets. Production during this year have been more than doubled from the previous year. Prices have been decreased after new crop harvest. Export demand significantly have been increased and approximately reaching at 14-15 thousand tons in February. Prices are lower due to sufficient availability.

RECORD HIGH PRICES LIKELY TO BOOST KHARIF PULSES ACREAGE

Record high prices for most various of pulses would likely to boost their acreage during next Kharif season. Tur, Urad and Moon acreages likely to increase in next Kharif season, according to exports and traders.

DEMAND FOR SUGAR INCREASED HEATWAVES

Sugar demand in domestic markets of India have been increased due to heat waves of peak summer and seasonal demand. Demand is export to reach record high , prices also increased accordingly. Higher consumption of cool drinks and ice creams have lifted the demand and price of sugar. Above average heat in this summer resulted in higher demand for cood drinks and ice creams which are consuming more sugar.

RICE PRICES EASE AS NEW CROP ENTERING INTO MARKETS

Rice prices have been eased by 7 to 10% in last one month as new rabi crop entering into market. Government also taken steps for improvement of supply. Non-basmati rice prices are lower by 7% and basmati prices were lower by 10%.
