PALM OIL ROSE ON FIRMER RIVALS

Malaysian palm oil futures rose for the 2nd consecutive day of firmer Soya bean oil futures. In domestic markets of India palm oil prices rose more than Rs.30 per 1x10 lts packet and prices of sunflower oil, Gingilly oil and coconut oil prices significantly rose. Prices of edible oil likely to remain higher due to good demand during festival seasons. India's palm oil production estimated to increase significantly in coming years due to expansion in area of cultivation.

COCONUT OIL, COPRA AND COCONUT PRICE INCREASED

Coconut, copra and coconut oil prices increased significantly in domestic market of India due to lower supply. Copra. Gn oil prices increased due to lower arrivals and hike in other edible oil prices. Coconut production in last year and current fiscal have decreased. Prices of copra, c n oil prices also supported by other alternative edible oil prices. Gingelly oil prices are also increased significantly.

DUE TO LOWER PRODUCTION CASHEW PRICES INCREASED

During 2023-24 RCN production throughout growing nation of the world have been fell due to adverse affect of climate throughout growing season. Due to lower production supply remained tight and prices have been increased after past harvest season. Cashew kernel prices also increased on tight supply position. Prices likely to remain higher until next raw cashew nut producing season.
