## PALM OIL ROSE ON STRONG INDIA DEMAND

Malaysian palm oil futures for November delivery rose by RM 18 or 0.49% to RM 3714 ( \$ 835.55) per ton as of mid-day 16-8-2024 on strong demand from top buyer India according to the news sources. Malaysian palm oil products exports for 1-15 August 2024 lower by 22.3% from July according to Amspec Agri Malaysia. According to ITS exports fell by 20.2% . Palm oil futures set for 4th weekly drop.

## SUGAR PRICES STEADY TO LOW ON WEAK DEMAND

Sugar prices remained steady to weak in major domestic markets of India due to insufficient demand at higher prices. Prices dropped in Uttarpradesh Rs.10 per quintal and Rs.5 per quintal in Maharastra according to the news sources.

## GLOBAL RCN PRICES WEAK

RCN prices in Global market have been came down to some extent due to lower demand at higher prices. Processors had purchased on larger quantity at higher prices, earlier due to lower Global RCN production. Production in India also dropped by significant quantity. Prices likely to remain steady to weak for some time. In Indian domestic market demand for cashew kernels likely to increase during Navarathri and Deepavali festivals.

## INDIAN RICE EXPORT PRICES FURTHER LOWER ON SLOW DEMAND

Indian rice export prices during this week fell further close to slow demand and expectation of higher production in new kharif crop season.

## GREEN PEAS PRICES INCREASED NEARLY BY DOUBLE IN FORTNIGHT

Green peas prices have been increased nearly to double (Rs.80-90 per kg had increased to Rs.150-165 per kg) within last 15-20 days. This is said to be lower global production of green peas. As demand for yellow peas have been significantly from India and China, grower had increased yellow peas production. Green peas cultivation have been decreased. Prices have been significantly increased. Demand for yellow peas significantly increased during this year due to lower pulses production in last season.
