MALAYSIAN CPO PRODUCTION IN MAY 2024 UP BY NEARLY 15%

Malaysian CPO production in May 2024 has increased by 14.85% from April 2024, according to MPOS. Palm oil futures for August up by 0.4% to RM 3976(\$ 848.12) per ton at 7/6/2024 closing and weekly contract less 2% for this week.

CORN IMPORTS FROM MYANMER

India has started imports corn from Myanmar (duty free) atleast 3 ships have been arrived at Chidambaramar port in Tamilnadu is Thoothukudi and few more ships will arrive by later in July according to the news sources. Maize and corn prices likely to affected by imports and remain under control. Due to higher demand Maize prices have been increased significantly.

RICE PRICES ON INCREASE

Basmathi, Para-boiled and boiled rice prices are increasing from several days due to lower production and supply. Government will take proper steps to control rising prices. Monsoon is on the way and planting will begin from this month. Favourable climate and planting data also will help to control prices.

GOVERNMENT PLANNING TO PROCURE 1 MMT CHANA AT MARKET PRICE

The Central Government is planning to procure 1 million tons of Chana under price stabilization fund at prevailing market price or potentially higher to increase the stocks. Due to lower output and increasing prices Government has been unable to procure pulses at required quantity through MSP. Market prices are much more than the MSP.

BLACK PEPPER PRICES INCREASED DUE TO TIGHT SUPPLY AND HIGHER DEMAND

Black pepper prices in domestic market have been increased more than 20% in last few months due to tight supply and increased demand from industries and other fields. Prices of imported Pepper also higher due to increasing global prices of black pepper.
