PALM OIL FELL ON WEAK EXPORTS

Malaysian palm oil futures fell on weak exports and lower rival edible oil prices. Futures for delivery fell by 0.51% to RM 3689(\$ 829.73) per ton lowest since January 5, 2024 (7 months). Malaysia's palm oil inventories in July fell 5.35% from the June 2024 to 1.73 million tons. Lower exports in August could rise inventories. India's palm oil imports in July rose 37% to 1.1 million tons.

Soy oil imports rose 42% to 391791 tons while sunflower oil imports fell by 21.3% to 366541 tons. Total edible oil imports rose by 22.2% to 1.9 million tons according to the news sources.

SUGAR PRICES STEADY

Sugar prices stable in domestic markets due to low demand at higher prices. Prices are steady to weak, prices down by Rs.10 per quintal in Uttarpradesh and steady in Maharastra.

CHANA, CHANA DAL PRICES UP ON INCREASED DEMAND

Both Kabuli and desi chana and chana dal prices have been increased due to higher demand towards festival season. Due to lower production supply is tight imports are delaying from African countries such as Tanzania. Prices remained higher due to increased demand.
