MALAYSIA'S AUGUST END PALM OIL STOCKS LIKELY AT 6 MONTHS HIGH

Palm oil inventories at August end in Malaysia is likely to be at 6 months high due to slower exports and rising production according to Reuters survey. Inventories were seen higher for a 4th consecutive month, increasing by 1.23% from July to 1.89 million tons according to the median estimate of 11 traders and analysts polled by Reuters. Malaysia's August Palm oil exports were estimated at 1.33 million tons down by 1.77% from July according to the Reuters Survey. Malaysian Palm oil prices fell by RM 55 or 1.36% to RM 3985 (\$ 856.62) per ton as on yesterday closing.

SUGAR PRICES ROSE ON INSUFFICIENT RAINFALL

Insufficient rainfall in main Sugarcane growing states Maharashtra and Karnataka have been supported the Sugar price. The Government has released total 25.5 lakh tons Sugar to sales in July and for August national sales quota 125000 tons prices went up by 100 per quintal. Insufficient rain in main growing states likely to effect sugar cane and sugar content percentage on sugarcane may be effected. Sugar prices going on rising during this festival seasons.

PULSES PRICES HAVE BEEN INCREASED AGAIN

Tur or Arhar, Moong prices have been increased again and their prices rose significantly. Due to insufficient rains during monsoon season this year made the sowing area of Arhar, Moong and Urid lower from last year and dry weather in August may likely to effect production prices of Urid and its dal also increased. Green peas, White peas, Horsegram prices are also substantially increased. Despite higher crop production during last year Chana and Chana dal prices also rose considerably.
